HCR-540 CONFIGURATION INSTRUCTIONS

Thank you for your interest in the HRC-540 Hospitality Remote Control. Please follow the directions below to create the custom configuration for your particular application. Upon receipt of the configuration kit, Celadon will prepare a functional sample for evaluation and final approval.

- 1) Place each original remote(s) into included individual numbered bags.
- 2) Complete all relevant information on command table including:
 - a. Add Device Type for each original remote control.
 - b. Add Device Brand for each original remote control.
 - c. Add button name from original to corresponding location on command table.
- 3) Complete all relevant information on overlay artwork template including:
 - a. Delete or X out any unused buttons from standard layout.
 - b. List button function and indicate position on overlay template.
 - c. Define artwork specifications including font style, colors and logo information.
 - d. An example of the artwork is provided for reference.
- 4) Enclose original remotes, command table and overlay artwork template in kit and seal box with included packaging tape.
- 5) Use the prepaid UPS shipping label to return kit to Celadon.
